The project also includes development of a full parking lot to serve the new buildings and adding landscaping throughout. 7. FACADE IMPROVEMENT GRANT PROGRAM
 - A. **Continuation of Façade Improvement Program No. 08-03**, Michael Shapiro: Consideration of awning replacement at 367 North State Street (002-186-12). Summary update: On June 12, 2008 the Design Review Board determined expressed interest in exploring an awning color other than the existing blue. Member of the Board suggested a color that would highlight the tones of the brick or possibly red, but no agreement was reached. The applicant prefers to retain the existing or possibly a lighter shade of blue. However, he is open to other suggestions of the Design Review Board. He is opposed to stripes or a color that will exhibit fading. The applicant is interested in replacement of the awning as soon as possible. The building is partially brick and partially gray painted wood. Buildings to the north, south and west exhibit green and burgundy awnings. There is no predominate color scheme in the surrounding area. Please refer to the Staff Report for June 12 regarding project details, recommended action, findings and conditions.
