SUBJECT: Award a Contract for the Downtown Utility Upgrade and Electrical Underground, Specification #19-17 to Wahlund Construction Inc., in the amount of $3,934,856.50.

DEPARTMENT: Public Works
PREPARED BY: Tim Eriksen, Public Works Director/City Engineer, Mary Horger, Financial Services Manager, Shannon Riley, Deputy City Manager
PRESENTER: Tim Eriksen, Director of Public Works and City Engineer

ATTACHMENTS:
1. Bid Results - Spec 2019-17 Downtown Utility Upgrade & Electric Undergrounding
2. Wahlund Bid - Spec 2019-17

Summary: City Council will consider awarding a contract for the Downtown Utility Upgrade and Electrical Underground Project, Specification #19-17, to Wahlund Construction Inc., in the amount of $3,934,856.50, and approve budget amendments.

Background: On November 20, 2019, Council approved the plans and specifications and directed staff to advertise for bids for the Construction of the downtown streetscape project, Specification No. 19-17. This project consists of replacing all water and sewer facilities in State Street between the cross streets of Mill Street to Henry Street. In addition, the conduit will be installed for all the overhead services of Electric, telephone and cable television. The actual undergrounding of these utilities will be after the conduit is placed.

Discussion: On November 13, 2019, bids were released to all A Classification Contractors as well as the Builders Exchanges. Specifications were also posted to the City’s website and published in the Ukiah Daily Journal on November 17th and 24th, 2019. A mandatory pre-bid meeting was held on December 4, 2019, with five potential bidders in attendance.

Bids were received until 2:00 p.m. on Wednesday, January 22, 2020, at which time five bids were received and opened by the City Clerk. The bid tabulation is shown as Attachment 1. Bids were received from Granite Construction Co., Ghilotti Construction Co., Argonaut Construction, Team Ghilotti, Inc. and Wahland Construction, Inc. After careful review of the bids received, Wahland Construction, Inc. has been found to the lowest responsible bidder, with a bid submitted in the amount of $3,934,856.50. Please refer to Attachment 2 for a copy of their bid.

This project will be funded from the three utilities of Electric, Water and Sewer. These funds will be charged actual quantities that are used on this project.

Recommended Action: Award a contract for the Downtown Utility Upgrade and Electrical Underground, Specification #19-17 to Wahlund Construction Inc. in the amount of $3,934,856.50, plus City Engineer approved change orders up to 10% of the original Bid $393,486 for a total of and associated budget amendment $4,328,342.
BUDGET AMENDMENT REQUIRED: Yes.

CURRENT BUDGET AMOUNT: 82027111.80230.18019: $1,700,000; 84427221.80230.18019: $977,000; 80126100.80230.18048: $0

PROPOSED BUDGET AMOUNT: Each account will need amendments to add the following dollar amounts:
82027111.80230.18019: $318,955; 84427221.80230.18019: $716,854; 80126100.80230.18048: $615,536

FINANCING SOURCE: N/A

PREVIOUS CONTRACT/PURCHASE ORDER NO.: N/A

CITY OF UKIAH  
MENDOCINO COUNTY, CALIFORNIA  

PROPOSAL  
FOR  
DOWNTOWN WATER AND SANITARY SEWER UTILITY PROJECT  

Specification No. 2019-17  

The undersigned, as bidder, declares that he or she has examined thoroughly all of the contract documents herein contained, that this proposal is made without collusion with any other person, firm or corporation and that all laws and ordinances relating to the interest of public officers in this contract have been complied with in every respect. 

AND he or she proposes and agrees, if this proposal is accepted, 

1) that he or she will contract with the City of Ukiah, Mendocino County, California, in the form of the copy of the agreement herein contained  
   a) to provide all necessary machinery, tools, apparatus and other means of construction;  
   b) to furnish all materials;  
   c) to provide all superintendence, overhead expenses and all labor and expenses of whatever nature necessary to complete the job in conformity with the specifications and drawings and other contract provisions herein or reasonably implied hereby or as necessary to complete the work in the manner and within the time named herein and according to the requirements and to the reasonable satisfaction of the City Engineer;  
   d) to pay all charges of freight transportation and hauling;  

2) that he or she indemnifies the City against any loss or damage arising from any act of the undersigned as Contractor; and  

3) that he or she will accept as full payment therefor the following sums:
BIDDING SCHEDULE

In the case of any discrepancy between the unit price and the total set forth for the item, the unit price shall prevail; provided, however, that if the amount set forth as a unit price is ambiguous, unintelligible or uncertain for any reason, or is omitted, or in the case of lump sum items, is not the same amount as the entry in the “Total” column, then the amount set forth in the “Total” column for the item shall prevail in accordance with the following:

1. As to lump sum items, the amount set forth in the “Total” column shall be the unit price;
2. As to unit basis items, the amount set forth in the “Total” column shall be divided by the estimated quantity for the item and the price thus obtained shall be the unit price.

The Sub-Total Bid for the Downtown Water and Sanitary Sewer Replacement Project shall be the sum of the items in the “Total” column for the Downtown Water and Sanitary Sewer Replacement Project. The Sub-Total Bid for the State Street Underground from Clay St to Mill St Project shall be the sum of the items in the “Total” column for the State Street Underground from Clay St to Mill St Project. The Total Bid shall be the sum of the Sub-Total Bid for the Downtown Water and Sanitary Sewer Replacement Project and Sub-Total Bid for the State Street Underground from Clay St to Mill St Project. In case of discrepancy between the sum of the items in the “Total” column and the amount entered as Sub-Total Bid, the sum of the “Total” column items shall prevail. In case of discrepancy between the sum of the amount entered in the “Sub-Total Bid” Column and the amount entered as the Total Bid, the sum of the “Sub-Total Bid” Column shall prevail. The bid comparison will be based on the sum of the items in the “Sub-Total Bid” column for each bidder.

The Unit prices for the various Construction Items below include all costs associated with the General Conditions, Special Provisions, Requirements of the Construction Contract, and represent the total, complete, in-place cost for each specific Construction Item in accordance with the Construction Documents, including all elements, work components, accessories, and connections, shown in applicable details or required to yield a complete, sound and functional component or system appropriate for its intended function, whether or not such is specifically described or listed in any description of measurement or payment. The total amount of the Construction items below shall represent the total and complete cost of the fully functional Project. All work not specifically listed below be required to complete the work of the various construction items and the cost of such shall be considered as included throughout the various unit prices indicated.

Lowest bid will be based on the lowest Total Bid.

DOWNTOWN UTILITY UPGRADE & ELECTRIC UNEGROUNDING 109
Spec. No. 2019-17 – Reflecting Addendum 1
STATEMENT OF EXPERIENCE OF BIDDER

The bidder is required to state below what work of similar magnitude or character he or she has done and to give references that will enable the City Council to judge of his or her experience, skill and business standing and his or her ability to conduct work as completely and rapidly as required under the terms of the contract.

See attached Statement of Experience.
WAHLUND CONSTRUCTION, INC
A GENERAL ENGINEERING CONTRACTOR
Lic. #678993 A, B, Asbestos, Hazmat

830 HILMA DRIVE
EUREKA, CA 95503
(707) 268-0150 PHONE
(707) 268-0137 FAX
Firm Profile

Wahlund Construction, Inc. is a Eureka; California based general engineering and general building contractor with over 35 years of experience including residential, commercial, industrial and municipal construction. Wahlund Construction has been licensed for asbestos and hazardous substances removal since 1993 and has over 25 years of experience in these fields. In recent years Wahlund has specialized in the construction of large water and wastewater improvement projects including numerous successfully completed horizontal direction drilling projects. With a crew of highly skilled union laborers and operators, Wahlund Construction is known throughout the region for attention to detail, high quality work, and a reputation for integrity. Wahlund Construction, Inc. has completed every project it has undertaken on time and has never been assessed liquidated damages on any project. With a design engineer on staff, Wahlund Construction has the value engineering ability that is not typical with other general contractors. Wahlund Construction also has full insurance coverage and has an A, B, Asbestos and Hazmat contractor’s license. This covers the owner for every site specific situation that may arise.

Current Bonding Capacity is 40 Million Single and 80 Million Aggregate.

Wahlund Construction Team

Ken Wahlund, Project Superintendent

Mr. Wahlund has over 35 years of general engineering construction experience including residential, commercial, industrial and municipal construction. He has done extensive demolition and asbestos/hazardous materials abatement related construction. He has also been involved in the construction of several large scale wastewater treatment plant upgrades. He has been Project Superintendent for most Wahlund Construction projects including overall Project Superintendent/Manager for joint ventures such as the City of Fortuna Waste Water Treatment Facility and the Crescent City Water Pollution Control Facility. His experience in working with local regulators and with local conditions will expedite both the permitting and completion of this project.

Specific duties and responsibilities include: project superintendent, submittals, coordination with owner, engineers and subcontractors.

Bret Rinehart, PE, Consulting Engineer

Mr. Rinehart is a California Licensed Civil Engineer (License # 70375) with over 12 years of construction and construction management experience. He has a degree in Civil Engineering from the University of Utah. He has specialized in the field of public works construction including water and wastewater treatment and facilities. He has been involved in both the construction and construction management of several water utility and wastewater treatment plant upgrades including the City of Eureka Mad River Parallel Pipeline and the City of Fortuna Waste Water Treatment Facility. He started working with Wahlund Construction in 2007 as the Assistant Project Superintendent for the Crescent City Water Pollution Control Facility project. He was Project Superintendent for the Ferndale WWTP Additions Project, Rio Dell WWTP Upgrade and Disposal Project, and Bear River WWTP and Disposal Design/Build Project. He
was the design engineer of record for the City of Eureka Biosolids Dewatering Design Build Project and Bear River WWTP and Disposal Design/Build Project. He was Project Superintendent for the HBMWD Techtie Pipeline Replacement Project.

Specific duties and responsibilities include: project superintendent, project engineer, scheduling, submittals, coordination with owner, engineers and subcontractors, permit compliance, supplementary engineering design.

**Ryan Wahlund, PE, Project Engineer**

Mr. Wahlund is a California Licensed Mechanical Engineer (License # 37001) with over 8 years of mechanical design experience. He has a Bachelor’s degree in Mechanical Engineering from California State University Chico. He has specialized in the field of mechanical design with an emphasis on pump systems. He started working part-time with Wahlund Construction 10 years ago as a summer intern Operating Engineer for the Crescent City Water Pollution Control Facility project. He started working full-time with Wahlund Construction in 2013 and successfully completed the Garberville Drinking Water Improvement Project, Scotia Infrastructure Improvements Project (Phases 1 and 2), and assisted in the design of the Bear River Rancheria Waste Water Treatment Facility Project. Specific duties and responsibilities include: project engineer, construction management, scheduling, submittals, coordination with owner, engineers and subcontractors, permit compliance, supplementary engineering design, mechanical systems design, pressure testing/flushing calculations, stress calculations, drafting.

**Robert Crittenden, Project Manager/Estimator**

Mr. Crittenden has 27 years of heavy civil construction and 10 years of building construction experience. He has a degree in Construction Management from the Fresno State University. He has extensive experience in the field of construction management, supervision, estimating, and has experience in residential, commercial, municipal construction and building demolition. He is an instructor at College of the Redwoods, teaching residential building estimating. He has done extensive underground, earthwork, and public utility related construction.

Specific duties and responsibilities include: project management, scheduling, submittals, coordination with owner, engineers and subcontractors, permit compliance.

**Curtis Seely, Superintendent/Foreman**

Mr. Seely has extensive experience in underground, pipeline, HDD drilling and earthwork construction. He has been with Wahlund Construction for the past 15 years and has worked on all of Wahlund’s large scale construction projects.

Specific duties and responsibilities include: Superintendent for Wahlund Construction crew, equipment operation, HDD drill rig operator, coordination with subcontractors, implementation of project plans, specifications, and permit conditions.

Completed Projects

2014-2018

Project Name: Scotia Infrastructure Improvements Project Phase 1 and Phase 2

Project Location: Scotia, CA

Description of Project: The project scope of work generally required the Contractor to remove and/or replace the Town of Scotia Company, LLC water, sanitary sewer, and storm drain utility infrastructure including: demolishing existing domestic and fire water, sanitary sewer, storm drain, and abandoned steam utility structures, and appurtenances, in place and by removal; keep existing operational utility infrastructure in service to all areas while constructing new domestic water, sanitary sewer, and storm drain utility infrastructure; reconfigure and overlay existing road surfacing; at specific locations, construct new sidewalk, curb, gutter, and ADA compliant facilities; coordinate construction work operations in an Owner-approved planned manner; and work in potential concurrent construction areas with PG&E community power changeover operations.

Contract Value of Project: $9,742,966.92

Wahlund Key Personnel: Bob Crittenden, Ryan Wahlund

Project Contact: Frank Bacik (707)764-4131
2015-2016

Project Name: Bear River Band of the Rohnerville Rancheria Wastewater Treatment Plant and Disposal Project Design Build

Project Location: Loleta, CA

Description of Project:

Design and construction of a new 120,000 gpd wastewater treatment plant and disposal field. Project includes installation of a JWC Grinder, Westech Drum Screen, AeroMod Biological Treatment System, Westech Disc Filter, Wedeco UV Disinfection System, concrete tank, metal building, site work and complete electrical and control system.

Contract Value of Project: $4,075,500

Wahlund Key Personnel: Bret Rinehart

Project Contact: Mike Flockhart (707)502-1146
2013 – 2014

Project Name: Humboldt Bay Municipal Water District Techite Pipeline Replacement Project

Project Location: Samoa, CA

Description of Project:

Project consists of construction of 11,000 linear feet of 20-inch, 4,400 linear feet of 12-inch, and 130 linear feet of 6-inch PVC water main with all service connections, fittings, paving, and earthwork to replace the existing Techite water main.

Time Frame to Complete Project: 180 days

Contract Value of Project: $2,889,892

Wahlund Key Personnel: Bret Rinehart

Project Contact: John Friedenbach 707-443-5018
2013-2014

Project Name: Garberville Sanitary District Drinking Water Improvement Project

Project Location: Garberville, CA

Description of Project:

This $2.3 million project involved the construction of a new surface water treatment facility including Loprest filter system; metal building; bolted steel backwash tank; and extensive modifications to the raw water intake, raw and finished water pipelines, and PLC controls; and site work.

Time Frame to Complete Project: 335 days

Contract Value of Project: $2,313,609

Wahlund Key Personnel: Bret Rinehart, Ryan Wahlund

Project Contact: Ralph Emerson (209)743-0125
2013 – 2014

**Project Name:** Martin Slough Force Main Drill and Trenching Project

**Project Location:** Eureka, CA

**Description of Project:**

Project consists of construction of 2,150 linear feet of 26” HDPE Force Main pipeline via horizontal directional drilling and 2,200 linear feet 26” HDPE Force Main pipeline via open cut trenching. The trenching portion of this project includes several streambed crossings, air relief valve installations, patch paving, revegetation, dewatering, and several tie-ins at the Eureka WWTP.

Wahlund Construction started this project as a subcontractor. However, the original company that won the bid for this project walked away after claiming the soils were not drillable. Wahlund Construction then worked with the City of Eureka to come up with viable solutions and took over as the general contractor for the project and completed it on schedule.

![Construction Site Image]

**Time Frame to Complete Project:** 300 days

**Contract Value of Project:** $8,956,941.00

**Wahlund Key Personnel:** Ken Wahlund

**Project Contact:** Roland Johnson (707)845-3047
2012 – 2013

**Project Name:** Rio Dell Wastewater Treatment Plant Upgrade and Disposal Project

**Project Location:** 475 Hilltop Drive, Rio Dell, CA. 95562

---

**Description of Project:**

Project consists of construction of wastewater treatment plant upgrades including new biological treatment facility, upgrade of existing facilities, complete new electrical system, approximately 12,000 linear feet of 14-inch diameter effluent pipeline and effluent disposal area. Project is subject to a California Environmental Quality Act - Environmental Impact Report and includes numerous mitigation measures covering biological resources, cultural resources, and hydrology/water quality. Pre-construction surveys were completed to located sensitive nesting birds and construction postponed until cleared by a qualified biologist. Project is located on the banks of the Eel River highlighting the need for compliance with stormwater best management practices.

**Time Frame to Complete Project:** 540 days

**Contract Value of Project:** $10,660,960.11

**Owner:** City of Rio Dell, CA

**2012 – 2013**

**Project Name:** City of Fortuna - Stewart Street Reservoir Replacement Project

**Project Location:** 1121 Stewart Street, Fortuna, CA 95540

**Description of Project:**
This project is split into two phases. Phase one included reconstruction of a booster pump station and piping, transmission piping and ties to existing piping, new distribution piping and services, including installation of new piping by horizontal directional drilling. Phase two, currently underway, consists of demolition of two existing covered 500,000-gallon reservoirs, excavation of the site to lower the base elevation for the new reservoir, construction of the foundation for the new reservoir, installation of a 2-million-gallon concrete water reservoir which includes rerouting of the on-site piping to connect the new concrete tank to the existing distribution system and installing transmission piping and ties to existing piping.

**Time Frame to Complete Project:** 318 days

2012

Project Name: City of Arcata Sewer Rehabilitation & Improvements

Project Location: Crescent & Bayside, Arcata, CA

Description of Project: Work consists of digging and replacing of 2,000 linear feet of existing sewer pipe, upsizing 1,200 linear feet of vitrified clay pipe from 8-inch to 12-inch class 300 HDPE pipe using pipe burst methods, replace 40 each sewer laterals and cleanouts, remove and replace 5 each sewer manholes, install 4 each new sewer manholes and all incidental work to complete construction work in place.

Time Frame to Complete Project: 30 Days

Contract Value of Project: $629,490.00

Wahlund Key Personnel: Curtis Seely

2012

Project Name: Table Bluff Landfill System Upgrades

Project Location: Table Bluff Closed Landfill

Description of Project: Work is on a Time and material agreement to provide labor, equipment, and materials for installation of 1,500-gallon precast concrete septic tank at the Table Bluff Closed Landfill. Install one new emergency overflow pipe for the concrete tank and rock slope protection at the emergency overflow pipe outfall location. Install one new inflow pipe from existing sump to new concrete tank and abandon existing emergency overflow pipe from existing sump. Install one new outflow pipe from the concrete tank to be connected to the existing sump distribution piping to the leach field. Grade and install concrete pads for a backup generator and a propane tank (generator and propane tank will be supplied and installed by others). Excavate and backfill trench for installation of gas line from backup generator pad to propane tank pad (gas line to be installed by others).

Contract Value of Project: T&M

Wahlund Key Personnel: Bob Crittenden
2010 – 2012

Project Name:
Ferndale Wastewater Treatment Plant Additions

Project Location:
606 Port Kenyon Road
Ferndale, CA 95536

Description of Project:
The Ferndale Wastewater Treatment Plant Additions project involved the construction of a new 0.95 mgd wastewater treatment facility for the City of Ferndale. Project included construction of an influent pump station, headworks with mechanical bar screen, aeration/clarification/digestion treatment system, disc filters, UV disinfection facilities, belt filter press, and effluent pump station. Project also included extensive underground utilities, site work, a wetlands mitigation area and site pre-loading for soil consolidation. Wetlands mitigation included construction of a 1-acre wetland complete with hummocks, wetland species planting, and reclaimed water irrigation. During the project Wahlund Construction assisted the County of Humboldt with
instream excavation and modifications to Francis Creek under an emergency permit. Flooding of the project site and Port Kenyon Road was alleviated and excavated soils were used in the construction of the wetlands mitigation. Project started August 2010 and was completed January 2012.

**Initial Contract Value (at time of bid award):** $8,265,088.00  
*Wahlund Construction’s Contract Value: $7,397,088.00*

**Total Value of Construction (including change orders):** $8,459,864.51  
*Wahlund Construction’s Total Value (including change orders): $7,513,045.51*

**Original Scheduled Completion Date:** November 1, 2011

2011 – 2012

Project Name:
Arcata-Eureka Airport Runway 14 Bluff Stabilization Improvements
Contract No. 919265;
Project No.: FAA AIP-3-06-0010-39

Project Location:
Arcata-Eureka Airport
McKinleyville, CA

Description of Project:
The work required for the Runway 14 Bluff Stabilization Improvements included stabilizing the bluff adjacent to Runway 14 to meet safety area criteria. The stabilization measures included full height mechanically stabilized earth (MSE) walls in two locations. The existing cut slope was shored using grouted nails. Grading of the Runway Safety Area, drainage improvements and relocation of the perimeter security fence was also elements of work.

Initial Contract Value (at time of bid award): $1,390,080.00

Total Value of Construction (including change orders): $1,542,472.17

2008 – 2010

Project Name:
Smith River Rancheria Wastewater Treatment Plant and Disposal System.

Project Location:
350 North Indian Road
Smith River, CA 95567

Description of Project:
The Smith River Rancheria Wastewater Treatment Facility is an efficient, effective project developed in partnership between the Tolowa People and the North Coast Regional Water Quality Control Board. Designed to provide high quality treatment, as the Tribe’s facilities grow, the project provided a cost-effective and scale-able solution to what had been a public health and environmental problem. The project involved the construction of a new wastewater treatment system and concrete tanks. This project also included a 1,600 square foot treatment building, a large leach field as well as two miles of pressure sewer boring by Wahlund Construction. The project was a Design Build project completed by both Wahlund and Winzler & Kelly.

Initial Contract Value (at time of bid award): $2,350,521.80

Total Value of Construction (including change orders): $2,647,387.80
Original Scheduled Completion Date: February 20, 2010

Time Extensions Granted (number of days): 0

2007

Project Name: Rocky Gulch Creek Culvert Replacement Phase 1 & 2

Project Location: Rocky Gulch Creek, Arcata, CA

In 2007, Wahlund Construction replaced several culverts on Rocky Gulch Creek near Eureka, CA with a bridge and aluminum box culvert. Phase 1 involved traffic control, road closure, a pumped bypass of the creek, removal of two existing culverts and installation of a 16’ wide x 56’ long aluminum box culvert. Phase 2 involved in stream restoration of the stream channel and replacement of an existing driveway culvert with a prefabricated bridge. Intent of the project was to improve passage for anadromous fish such as the endangered Coho salmon. Construction was limited to the summer dry season, from June 15 to November 1, or the first rainfall. Project was funded by the California Coastal Conservancy’s Humboldt Fish Passage Improvement Program. Both projects were completed in Summer 2007 and opened 2.7 miles of habitat.

Initial Contract Value (at time of bid award):
$145,660 (Phase 1), $92,000 (Phase 2)

Total Value of Construction (including change orders):
$145,660 (Phase 1), $92,000 (Phase 2)

Original Scheduled Completion Date: 08/2007 (Phase 1), 11/2007 (Phase 2)

2007 – 2011

Project Name:
City of Crescent City Water Pollution Control Facilities Improvement Project

Project Location:
Crescent City, Del Norte County, CA

Description of Project:
In 2007, a joint venture of Wahlund Construction, Sequoia Construction Specialties, and O&M Industries began construction of a complete remodel and upgrade of the existing water pollution control facilities in Crescent City, CA. Project was completed on May 3, 2011 and remained under budget and on schedule. Central to the project is the construction and installation of a 1.2 million gallon per day Siemens Membrane Bioreactor (MBR) package and associated tanks and facilities. Project included construction of new laboratory, operations, dewatering, MBR buildings and rehabilitation of existing digesters, primary and secondary clarifiers. Project also
included extensive underground utilities and electrical and complete renewal of all site work, paving and landscaping.

**Initial Contract Value (at time of bid award):** $37.2 million.

*Wahlund Construction’s Contract Value: $14,893,360.00*

**Total Value of Construction (including change orders):** $37,601,542.00

2004 – 2007

Project Name:
City of Fortuna Waste Water Treatment Facility 2004 Expansion

Project Location:
Fortuna, Humboldt County, CA

Description of Project:
In 2005, a joint venture of Wahlund Construction and Sequoia Construction Specialties began construction of extensive upgrades to the existing waste water treatment facility in Fortuna, CA. Project included construction of dewatering and composting facilities, anaerobic digester, cogeneration engine, secondary clarifier, headworks upgrades and other modifications. A new metal building was constructed to house the composting facilities and new CMU buildings were constructed for the operations and digester buildings. Project also included extensive
underground utilities, electrical, site work, and paving. This upgrade increased capacity of the existing treatment facility with emphasis on sludge handling and composting. Project was completed in 2007 with a final construction cost of $11.2 million.

Initial Contract Value (at time of bid award):

2006 – 2007

Project:
Prairie Creek Redwoods State Park Public Use Improvements

Project Location:
Prairie Creek State Park

Project Description:
This project consisted of 2 new restroom facilities, new entrance station, new electrical service through 5,000’ of directional boring, 3 new leach fields and associated sitework. Wahlund Construction was a subcontractor and was responsible for the leach fields and underground piping. All work was done in an environmentally, cultural and archeologically sensitive area. Species of concern included the threatened Marbled Murrelet and Pacific Giant Salamander. Construction halted during the summer months for Marbled Murrelet mating season. Yurok Tribe members observed all excavations during the project to protect cultural and archeological resources. Project was completed September 2007 with a final contract amount of $1,800,971.

Initial Contract Value (at time of bid award): $671,000.00

Total Value of Construction (including change orders): $681,507.40

2004

**Project Name:**
City of Eureka Mad River Parallel Pipeline Project

**Project Location:**
Eureka, Humboldt County, CA

![Installation of 18" water main in county road right-of-way.](image)

**Project Description:**
As part of a multi-phase parallel pipeline project, Wahlund Construction installed 5,600 feet of 18" ductile iron water main parallel to the existing pipeline supplying water to the City of Eureka. The pipeline followed Myrtle Avenue and Old Arcata Road in Indianola. Construction involved extensive traffic control, tie-ins to the existing pipeline at three locations, replacement of multiple service lines and installation of fire hydrants. Construction started May 2004 and was complete August 2004 with a final construction cost of $1.129 Million.

**Initial Contract Value (at time of bid award):** $1 Million

BIDDER'S BOND

KNOW ALL MEN BY THESE PRESENTS,

That we, ________________________________

___________________________ as PRINCIPAL and

______________________________ as SURETY,

are held and firmly bound unto the City of Ukiah in the penal sum of 10 PERCENT OF THE TOTAL AMOUNT OF THE BID of the Principal above named, submitted by said Principal to the City of Ukiah, as the case may be, for the work described below, for the payment of which sum in lawful money of the United States, well and truly to be made, to the City Clerk to which said bid was submitted, we bind ourselves, our heirs, executors, administrators and successors jointly and severally, firmly by these presents. In no case shall the liability of the surety hereunder exceed the sum of $10% (TEN PERCENT OF THE AMOUNT OF THE BID)

THE CONDITION OF THIS OBLIGATION IS SUCH,

That whereas the Principal has submitted the above mentioned bid to the City of Ukiah, as aforesaid, for certain construction specifically described as follows, for which bids are to be opened at the Office of the City Clerk, Ukiah Civic Center, Ukiah, California, on January 22, 2020 for DOWNTOWN UTILITY UPGRADE & ELECTRIC UNDERGROUNDING.

NOW, THEREFORE, If the aforesaid Principal is awarded the contract and, within the time and manner required under the specifications, after the prescribed forms are presented to him or her for signatures, enters into a written contract, in the prescribed form, in accordance with the bid and files two bonds with the City of Ukiah, one to guarantee faithful performance and the other to guarantee payment for labor and materials, as required by law, then this obligation shall be null and void; otherwise, it shall be and remain in full force and virtue.

IN WITNESS WHEREOF, we have hereunto set our hands and seals on this 21ST day of JANUARY, A.D. 2020 ....

POWER OF ATTORNEY

KNOW ALL MEN BY THESE PRESENTS: That Travelers Casualty and Surety Company of America, Travelers Casualty and Surety Company, and St. Paul Fire and Marine Insurance Company are corporations duly organized under the laws of the State of Connecticut (herein collectively called the “Companies”), and that the Companies do hereby make, constitute and appoint LELA ANN WHEELER, of EUREKA, California, their true and lawful Attorney-in-Fact to sign, execute, seal and acknowledge any and all bonds, recognizances, conditional undertakings and other writings obligatory in the nature thereof on behalf of the Companies in their business of guaranteeing the fidelity of persons, guaranteeing the performance of contracts and executing or guaranteeing bonds and undertakings required or permitted in any actions or proceedings allowed by law.

IN WITNESS WHEREOF, the Companies have caused this instrument to be signed, and their corporate seals to be hereto affixed, this 17th day of January, 2019.

State of Connecticut

City of Hartford ss.

By: ____________________________

Robert L. Raney, Senior Vice President

On this the 17th day of January, 2019, before me personally appeared Robert L. Raney, who acknowledged himself to be the Senior Vice President of Travelers Casualty and Surety Company of America, Travelers Casualty and Surety Company, and St. Paul Fire and Marine Insurance Company, and that he, as such, being authorized so to do, executed the foregoing instrument for the purposes therein contained by signing on behalf of said Companies by himself as a duly authorized officer.

IN WITNESS WHEREOF, I hereunto set my hand and official seal.

My Commission expires the 30th day of June, 2021

Anna P. Nowik, Notary Public

This Power of Attorney is granted under and by the authority of the following resolutions adopted by the Boards of Directors of Travelers Casualty and Surety Company of America, Travelers Casualty and Surety Company, and St. Paul Fire and Marine Insurance Company, which resolutions are now in full force and effect, reading as follows:

RESOLVED, that the Chairman, the President, any Vice Chairman, any Executive Vice President, any Senior Vice President, any Vice President, any Second Vice President, the Treasurer, any Assistant Treasurer, the Corporate Secretary or any Assistant Secretary may appoint Attorneys-in-Fact and Agents to act for and on behalf of the Company and may give such appointee such authority as his or her certificate of authority may prescribe to sign with the Company’s name and seal with the Company’s seal bonds, recognizances, contracts of indemnity, and other writings obligatory in the nature of a bond, recognition, or conditional undertaking, and any of said officers or the Board of Directors at any time may remove any such appointee and revoke the power given him or her; and it is

FURTHER RESOLVED, that the Chairman, the President, any Vice Chairman, any Executive Vice President, any Senior Vice President or any Vice President may delegate all or any part of the foregoing authority to one or more officers or employees of this Company, provided that each such delegation is in writing and a copy thereof is filed in the office of the Secretary; and it is

FURTHER RESOLVED, that any bond, recognizance, contract of indemnity, or writing obligatory in the nature of a bond, recognizance, or conditional undertaking shall be valid and binding upon the Company when (a) signed by the President, any Vice Chairman, any Executive Vice President, any Senior Vice President or any Vice President, any Second Vice President, the Treasurer, any Assistant Treasurer, the Corporate Secretary or any Assistant Secretary and duly attested and sealed with the Company’s seal by a Secretary or Assistant Secretary; or (b) duly executed (under seal, if required) by one or more Attorneys-in-Fact and Agents pursuant to the power prescribed in his or her certificate or their certificates of authority or by one or more Company officers pursuant to a written delegation of authority; and it is

FURTHER RESOLVED, that the signature of each of the following officers: President, any Executive Vice President, any Senior Vice President, any Vice President, any Assistant Vice President, any Secretary, any Assistant Secretary, and the seal of the Company may be affixed by facsimile to any Power of Attorney or to any certificate relating thereto appointing Resident Vice Presidents, Resident Assistant Secretaries or Attorneys-in-Fact for purposes only of executing and attesting bonds and undertakings and other writings obligatory in the nature thereof, and any such Power of Attorney or certificate bearing such facsimile signature or facsimile seal shall be valid and binding upon the Company and any such power so executed and certified by such facsimile signature and facsimile seal shall be valid and binding on the Company in the future with respect to any bond or understanding to which it is attached.

I, Kevin E. Hughes, the undersigned, Assistant Secretary of Travelers Casualty and Surety Company of America, Travelers Casualty and Surety Company, and St. Paul Fire and Marine Insurance Company, do hereby certify that the above and foregoing is a true and correct copy of the Power of Attorney executed by said Companies, which remains in full force and effect.

Dated this 21ST day of JANUARY, 2020.

______________________________
Kevin E. Hughes, Assistant Secretary

PUBLIC CONTRACT CODE SECTION 10285.1 STATEMENT

In accordance with Public Contract Code Section 10285.1 (Chapter 376, Stats, 1986), the bidder hereby declares under penalty of perjury under the laws of the State of California that the bidder has ___, has not ✔ been convicted within the preceding three years of any offenses referred to in that section, including any charge of fraud, bribery, collusion, conspiracy, or any other act in violation of any state or federal antitrust law in connection with the bidding upon, award of, or performance of, any public works contract, as defined in Public Contract Code Section 1100, including the Regents of the University of California or the Trustees of the California State University. The term "bidder" is understood to include any partner, member, officer, director, responsible managing officer, or responsible managing employee thereof, as referred to in Section 10285.1.

Note: The bidder must place a check mark after "has" or "has not" in one of the blank spaces provided.

The above Statement is part of the Proposal. Signing the Contractor's Proposal on the signature portion thereof shall also constitute signature of this Statement.

Bidders are cautioned that making false certification may subject the certifier to criminal prosecution.
PUBLIC CONTRACT CODE SECTION 10162 QUESTIONNAIRE

In accordance with Public Contract Code Section 10162, The Bidder shall complete, under penalty of perjury, the following questionnaire:

Has the bidder, any officer of the bidder, or any employee of the bidder who has a proprietary interest in the bidder, ever been disqualified, removed, or otherwise prevented from bidding on, or completing a federal, state, or local government project because of a violation of law or a safety regulation?

   Yes     No ✓

If the answer is "Yes," explain the circumstances in the following space.
PUBLIC CONTRACT SECTION 10232 STATEMENT

In accordance with Public Contract Code Section 10232, the Contractor hereby states under penalty of perjury that no more than one final unappealable finding of contempt of court by a federal court has been issued against the Contractor within the immediately preceding two-year period because of the Contractor's failure to comply with an order of a federal court which orders the Contractor to comply with an order of the National Labor Relations Board.

Note: The above Statement and Questionnaire are part of the Proposal. Signing this Proposal on the signature portion thereof shall also constitute signature of this Statement and Questionnaire.

Bidders are cautioned that making a false certification may subject the certifier to criminal prosecution.
